North Dakota Relay June 2004-May 2005

Date of Compl.	Nature of Complaint	Date of Resolution	Explanation of Resolution
11/03/04	ND VCO user complains she cannot get the agent to answer when dialing the ND designated VCO #, and if she does connect is very delayed.	11/03/04	Apologized for the problem and tried dialing through the #, with CA, and could not connect as VCO. Entered Trouble ticket.
12/03/04	TTY customer stated that the line disconnected. (This is a practice/mock up customer contact for experience)	12/03/04	Apologized for the problem and coached the CA.
01/14/05	STS Customer called North Dakota STS number and got agent number. Agent told STS customer "I can't type your call because of Dr's orders." I apologized to the customer and told her I would forward the info on to the supervisor. Customer would like contact through her email. Customer also is going to contact the AM about STS agents saying they can not understand. I informed her that I was not aware that STS was over flowing to Ohio center.	01/26/05	CA was coached on the following: 1) responsibilities to relay all calls in a professional manner. 2) CA should not interject personal opinions or provide additional. info during a relay call. 3) refusing to process a call or intentionally disconnecting is a serious offense. Lastly, we must provide the highest quality customer service to our customers. A follow-up email was sent early today (1/26) assuring the customer that this CA will remain professional at all times.
01/18/05	The Voice person stated that at 755 am she was using prepaid card to place a call and agent asked her 4 time if she was trying to reach someone who is Deaf or Hard or hearing before the call was placed. The customer felt that she don't need to be asked whether or not she is calling someone who is deaf or hard of hearing. Felt that agent should dial the number given period. Apologized for the inconvenience and assured her that this will be followed up. No follow up required.	01/21/05	Met with CA to discuss about the incident. Coached CA to simply dial out the number without asking if the inbound voice caller wants to reach a deaf or hard-of-hearing person.
02/24/05	2-22-05 I had a TERRIBLE experience with CA last evening. (It was about 4:30 – 5:00 CST). I called a number & got an answering machine. He typed all that but when a live person came on he didn't type anything. I redialed & after the live person answered he typed, one Moment Pls". The person I had called was already on the line. I can hear voices but I can't understand so this person I called was talking at me but I couldn't understand it. I didn't know for sure who was talking who was talking to me. I tried to talk to the CA. Someone talked back to me but I had no idea who it was or what he or she was saying to me. Somewhere along the line a Supervisor got involved.	02/24/05	Account manager sent an email with reply to the customerthank her for sharing her concern and I will notify the supervisor. No follow up contact needed. Case closed.

03/29/05	on the phone over two hours frying to resolve the problem not able to connect to three long distance numbers through relay. Only gets a busy signal, but if dial the numbers direct the line rings. She reported the numbers dialed and the CA numbers so a trouble ticket was entered, TT was entered. Customer Service response: Thanked her for letting us know and told her of a known issue that other TT had also been turned in to resolve the matter. Apologized for her inconvenience. No follow up requested.	03/29/05	Unable to resolve complain, since this is a technical issue, and a trouble ticket has already been created.
05/09/05	Customer Complaint: The operator could not seem to type correctly on this important call to the bank. He kept typing XXX then try again to the point that the caller could not make out what was being said. Customer Service Response: Apologized for the inconvenience and told the caller the report would be sent to the call center supervisor. Thanked her for taking time to let us know. No follow up requested.	05/09/05	Met with agent, and he did remember the call. He stated that the voice person was not talking clearly and when he tried to clarify certain phrases, they would say something different so he had to correct it when typing it again. Coached agent on keeping customer informed, if person is not talking clearly, so that the customer wont think its the agent's fault.
